

STATUTORY NOTICE REGARDING THE INSTALLATION OF ELECTRONIC COMMUNICATIONS APPARATUS UNDER THE ELECTRONIC COMMUNICATIONS CODE

PARAGRAPH 75(2) OF PART 11 OF SCHEDULE 3A OF THE COMMUNICATIONS ACT 2003

NOTES TO CONSULTANT

1. This notice is in a form approved by Ofcom. The text must not be changed except where it is highlighted in yellow.
2. The notice must be displayed by consultants on EE and/or H3G's behalf for apparatus the whole or part of which is at a height 3 more metres above the ground and where one or both operators were not previously in occupation. It is not required to be displayed for upgrades where both operators are already in occupation or no new operator is being brought into operation on a site.
3. This notice should be given before the end of the period of three days from completion of the build element of the installation.
4. It must be attached, in a secure and durable manner, to every major item of apparatus installed or, if no major item of apparatus is installed, to the nearest major item of electronic communications apparatus to which the apparatus that is installed is directly or indirectly connected. It must also be attached in a position where it is reasonably legible. It should not be displayed on anything other than the site apparatus.
5. The consultant is to take photographs of the displayed notice in close up and showing its position in relation to the site. Copies of the photographs, ideally showing the date, are to be sent to the Project Manager.
6. Once in place, there is no time limit relating to the display of the notice.
7. Only the notice itself should be displayed. These notes should not be attached to the apparatus.
